EDUCATION

- Indian Institute of Technology, Jammu Aug 2023 - Present
B.Tech in Computer Science and Engineering 7.58 CGPA
- ODM Public School, Odisha 2023, 2021
Class XII : 96.8%, Class X : 95.8%

EXPERIENCE

- BlueStock Fintech May 2025 - July 2025
SDE Intern (*Certificate*)
 - Contributing to the development and optimization of fintech applications, focusing on frontend interfaces and full-stack solutions
 - Collaborating with cross-functional teams to implement features, fix bugs, and enhance user experience.
 - Gaining hands-on experience with tools and technologies such as Git, JavaScript, React, Node.js, etc.
 - Supporting agile development cycles, participating in code reviews, and writing clean, maintainable code.

PROJECTS

- ETL Guard: Full-Stack ETL Monitoring Platform [GitHub Link](#)
Cloud-Deployed Data Validation and Cleaning Platform
 - Tools and technologies:** ReactJS, FastAPI, PostgreSQL, SQLAlchemy, Pandas, Docker, JWT Authentication, Bootstrap, Recharts, Render, Vercel, Neon DB
 - Designed and deployed a **full-stack ETL monitoring platform** enabling users to upload, validate, clean, and analyze CSV datasets through an interactive web dashboard.
 - Implemented automated **data quality validation pipelines** for detecting missing values, duplicate rows, invalid email formats, negative numeric values, and schema drift across structured datasets.
 - Built secure **JWT-based authentication and user-specific analytics dashboards** using FastAPI and PostgreSQL, supporting protected APIs and multi-user data isolation.
 - Developed automated **data cleaning workflows** using Pandas to preprocess dirty datasets, generate validation reports, and export cleaned CSV files for downstream ETL usage.
- KiteGlam E-commerce App [GitHub Link](#)
Full Stack E-Commerce Web Application
 - Tools and Technologies:** ReactJS, Firebase Authentication, Firestore, Javascript, Bootstrap, Recharts, HTML/CSS, Responsive Design
 - Developed a full-stack responsive e-commerce platform with dynamic product management, category-based browsing, wishlist, shopping cart, product reviews, and inventory-aware purchasing system using **ReactJS** and **Firebase Firestore**.
 - Implemented secure user authentication features including **signup, login, password reset, email verification, and protected admin access** using Firebase Authentication, supporting both authenticated and guest user flows.
 - Built an advanced admin dashboard featuring **real-time order management, inventory tracking, stock updates, revenue analytics, product CRUD operations, and sales visualization graphs**, creating a scalable and production-ready shopping experience.

SKILLS

- Programming & Frameworks:** C/C++, Python, SQL, Object-Oriented Programming, pandas
- Full Stack Development:** Javascript, React, Angular, MongoDB, Firebase, Node.js, HTML/CSS, Bootstrap Framework
- Backend & Tools:** FastAPI, Docker, Git/GitHub Actions, Figma

RELEVANT COURSEWORK

- Courses:** Machine Learning, Computer Networks, Database Management Systems, Data Structures and Algorithms, Operating Systems, Computer Vision, Design and Analysis of Algorithms, Discrete Mathematical Structures, Computer Architecture, Principles of Programming Languages, Information Security

ACHIEVEMENTS

- Ranked **4452** among 28,135 active users in **Codeforces Round 1076**
- Solved **400+** algorithmic problems across **LeetCode, Codeforces and Hackerrank**
- Earned **Microsoft Azure AI Fundamentals (AI-900)** [Certification](#)
- Earned **Stanford online for Machine Learning** [Certification](#)

LEADERSHIP EXTRA-CURRICULAR ACTIVITIES

- Co-head of Event Management, Well-Being Club - IIT Jammu
- Public Relations and Outreach Manager, Techno-Cultural fest of IIT Jammu, ANHAD'25
